Dear Hiring Manager,

I am writing to express my interest in the Jr Engineer - Software Development position at MDA. I was thrilled to see the posting on the BCTech website. With my background in Computer Information Technology, experience in web development technologies, knowledge of Java development, proficiency in Agile development techniques, and dedication to customer service and experience, I believe I am the ideal candidate for this role.

seperate more of your jobs instead of having them all in the same sentence

I have had the pleasure of working as a Customer Service Representative for Tara Clothing Store, a Sales Associate for Caspian Apiaries Inc, and a Job Site Manager Assistant for Universal Environmental Services, where I further developed my organizational skills, sales and pricing strategies, communication, and active listening skills. I am also a graduate of Sutherland Secondary School and am currently enrolled in the Computer Information Technology program at the British Columbia Institute of Technology.

I think its good that you lead with your experience as there is a lot.

More recently, I have had the opportunity to work as a Customer Experience Associate at Bank of Nova Scotia. In this role, where I have had the opportunity to provide customers with their day-to-day banking needs while also providing accommodations for seniors and people with disabilities to create an exceptionally comfortable and pleasant experience.

I have also been involved in several projects.

I have developed an automated test framework to verify success criteria of planned features for an Agile development project,

Add into a list or paragraph

a back-end service in JavaScript and Node with a front-end interface in Angular for a web application,

a fully functional web application using HTML, CSS, and JavaScript for an online marketplace,

a Java-based game application and integrated game logic with a graphical user interface,

a web-based application using Python and integrated a PostgreSQL database,

an automated system using OOP in Python to facilitate data analysis and visualization.

I am confident that my skills and experience make me an excellent candidate for this position, and I am excited to learn more about the role and how I can contribute to the success of your team. I am available for an interview at your earliest convenience and look forward to discussing my qualifications with you in more detail.

Phone and email in closing paragraph

Thank you for your consideration.

Sincerely,

Mohammadamin (Amin) Davari
